INFUSYSTEM HOLDINGS, INC. REPORTS NET PROFIT OF \$0.03 PER SHARE IN THIRD QUARTER 2013

REAFFIRMS 2014 GUIDANCE OF HIGH SINGLE DIGIT REVENUE GROWTH

MADISON HEIGHTS, MICHIGAN, November 12, 2013—InfuSystem Holdings, Inc. (NYSE MKT: INFU) ("InfuSystem" or the "Company"), a leading national provider of infusion pumps and related services for the healthcare industry in the United States, today reported that net income in the third quarter was \$0.6 million, equal to \$0.03 per diluted share, compared to a \$0.0 million net income, or \$0.00 income per diluted share, in the prior year period. Net income for the nine months ended September 30, 2013 was \$0.8 million, equal to \$0.04 per diluted share, compared to a \$1.7 million net loss, or \$0.08 per diluted share, in the prior year period.

"The Company continues to build revenue momentum," said Eric Steen, Chief Executive Officer. "Our core IV pump rentals business again shows strong quarter-to-quarter gains, and we have also made significant progress on information technology initiatives that increase electronic connectivity with our customers. Savings generated by lowered SG&A expenses will be used to foster additional IT investments. Also of note, our expansion efforts in new product initiatives featuring Smart pumps and post-surgical pain management continue to grow. Our new Houston pump service center will open this month, offering expedited customer response and increased device utilization. It is also expected to save a quarter million dollars in air shipments alone in 2014," Steen concluded.

Revenues in the third quarter of 2013 were \$15.7 million, up 11% from \$14.2 million in the third quarter of 2012. Revenues for the nine months ended September 30, 2013 were \$45.1 million, a 6% increase, compared to \$42.6 million for the same prior year period. The increase in revenues was largely related to an increase in rental revenue of 11% and 7%, respectively, when compared to same prior year periods. Sales revenue was up 8% from prior year for the third quarter and down

approximately 4% from prior year-to-date period. The increase in rental revenues was primarily related to the addition of larger customers, increased penetration into existing customer accounts, the increase in the colorectal cancer and other cancer patients treated with the Company's services and the continuation of the revision to claims processing guidelines by a major group of third-party payors.

Gross profit for the three months ended September 30, 2013 was \$11.3 million, up 11% from \$10.2 million in the same period in the prior year. It represented 72% of revenues in the current period, which was consistent with the same prior year period. Gross profit for the nine months ended September 30, 2013 was \$32.1 million, up 4% from \$30.9 million compared to the nine months ended September 30, 2012. It represented 71% of revenues in the current period compared to 73% in the prior year. The decrease in the gross margin as a percentage of revenue in 2013 was primarily related to a decrease in rental gross margins from direct pay customers.

Mr. Steen also reaffirmed that the Company's guidance of high single digit revenue growth in 2014 has not changed. "As evidenced by the Company's receiving offers to provide external infusion pumps and supplies in all nine of the Metropolitan Statistical Areas ("MSAs") put out to bid by CMS, InfuSystem is well-positioned to take advantage of emerging opportunities as they appear. We offer the most cost-effective model to deliver infusion therapy at home as an extension of in-clinic infusion therapy. Despite initial enrollment difficulties, we fully expect The Affordable Care Act will spur continued market expansion, especially for treatment of multiple therapies and disease states."

Operating Results

During the three months ended September 30, 2013, general and administrative expenses were \$4.6 million compared to \$5.3 million for the same prior year period. General and administrative expenses have decreased from 37% to 29% of revenues for the third quarter of 2013 compared to the same period in the prior year. The decrease was primarily attributed to a reduction in prior year professional fees of \$0.3 million pertaining to additional legal and outside service fees as a result of the special meeting and changes in the composition of the Board of Director's and current year reductions of \$0.4 million in other general and administrative cost savings.

During the nine months ended September 30, 2013, general and administrative expenses were \$14.6 million compared to \$17.7 million for the same nine month period in 2012. The decrease between these periods was primarily related to prior year professional service and other costs for the Concerned Stockholder Group, which totaled approximately \$2.3 million; severance payments for a former CEO amounted to \$1.0 million; \$0.6 million was recorded during the three months ended March 31, 2012 for retention payments to key employees and a reduction in current year depreciation of approximately \$0.4 million partially offset by \$1.3 million of previously recognized stock compensation expense that was reversed due to the forfeiture and failure to meet the requisite service period.

Jonathan P. Foster, Chief Financial Officer, noted "The Company continues to improve its overall financial strength and strategic flexibility by implementing effective cost management techniques, lowering total debt by approximately \$3.7 million since year-end 2012, and taking advantage of growth opportunities in the rental services sector."

Selling and marketing expenses were \$2.4 million, which was consistent with the third quarter of 2012. For the nine months ended September 30, 2013, selling and marketing expenses were \$7.3 million compared to \$7.6 million for the same prior year period. The decrease in selling and marketing expenses was mainly attributed to lower travel, entertainment and salaries and commissions.

For the three months ended September 30, 2013, Adjusted EBITDA was \$4.3 million compared to \$3.6 million for the same period in 2012. For the nine months ended September 30, 2013, Adjusted EBITDA was \$11.3 million compared to \$10.5 million for the same prior year period. The Company utilizes Adjusted EBITDA as a means to measure its operating performance. A reconciliation from Adjusted EBITDA, a non-GAAP measure, to net income can be found in the appendix.

Financial Condition

Net cash provided by operations for the nine months ended September 30, 2013 was \$4.8 million compared to \$5.8 million for the prior year. Although net income is significantly improved from a year ago, increases in A/R are offsetting any cash improvement at September 30, 2013 when compared to the prior year.

As of September 30, 2013, we had cash and cash equivalents of \$0.9 million and \$5.0 million of availability on the Credit Facility compared to \$2.3 million and \$4.7 million, respectively, at December 31, 2012.

Conference Call

The Company will conduct a conference call for investors on Tuesday, November 12, 2013 at 9:00 a.m. Eastern Time to discuss third quarter performance and results. Eric Steen, Chief Executive Officer, and Jonathan P. Foster, Chief Financial Officer, will discuss the Company's financial performance and answer questions from the financial community. To participate in this call, please dial in toll-free (877) 261-8992 and use the confirmation number 36056983.
