# Forward-Looking Statements / Non-GAAP Measures

## Forward-Looking Statements

Certain statements contained in this presentation are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, such as statements relating to future actions, business plans, objectives and prospects, our share repurchase program and capital allocation strategy, future operating or financial performance and guidance. The words “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “should,” “plan,” “expect,” “strategy,” “future,” “likely,” variations of such words, and other similar expressions, as they relate to the Company, are intended to identify forward-looking statements. Forward-looking statements are subject to factors, risks and uncertainties that could cause actual results to differ materially, including, but not limited to, the uncertain impact of the COVID-19 pandemic, our dependence on estimates of collectible revenue, potential litigation, changes in third-party reimbursement processes, changes in law, contributions from acquired businesses or new business lines, products or services and other risk factors disclosed in the Company’s most recent annual report on Form 10-K and, to the extent applicable, quarterly reports on Form 10-Q. All forward-looking statements made in this presentation speak only as of the date hereof. InfuSystem does not undertake any obligation to update any forward-looking statements to reflect future events or circumstances, except as required by law.

## Non-GAAP Measures

This presentation contains information prepared in conformity with GAAP as well as non-GAAP financial information. The Company believes that the non-GAAP financial measures presented in this presentation provide useful information to the Company’s management, investors and other interested parties about the Company’s operating performance because they allow them to understand and compare the Company’s operating results during the current periods to the prior year periods in a more consistent manner. This non-GAAP information should be considered by the reader in addition to, but not instead of, the financial statements prepared in accordance with GAAP, and similarly titled non-GAAP measures may be calculated differently by other companies. The Company calculates those non-GAAP measures by adjusting for nonrecurring or non-core items that are not part of the normal course of business and that the Company’s management does not believe will have similar comparable year-over-year items. A reconciliation of those measures to the most directly comparable GAAP measures is provided in Appendix A of this presentation.

# Growth Strategy

Adding New High-Margin Therapy Segments & Biomedical Services

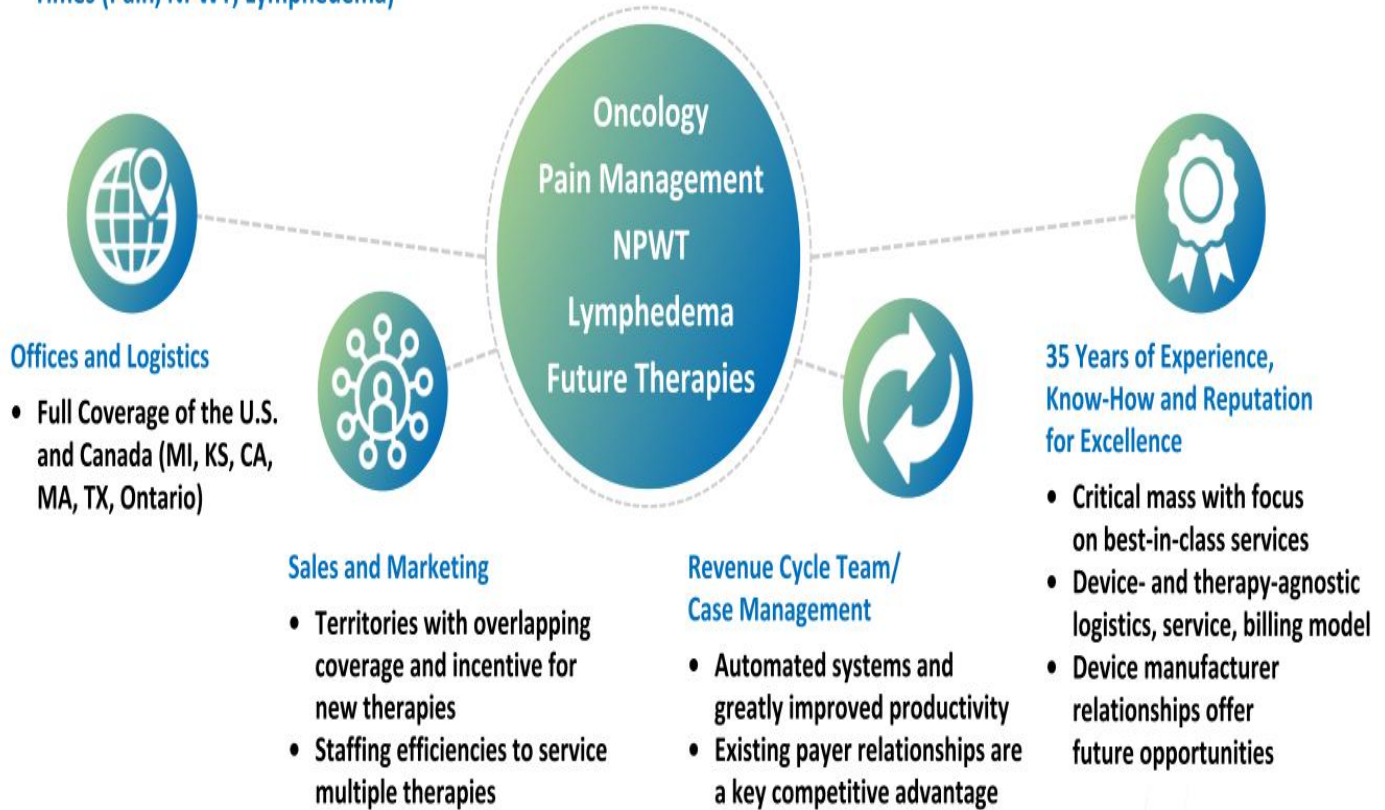

- Highly scalable infrastructure
- Currently evaluating multiple therapies through partnership and acquisition with multibillion-dollar TAM
- Leverage recognized core competencies to gain and sustain therapy leadership

# Highly Scalable Existing Infrastructure

Foundation Built In Oncology: Leveraged It Multiple Times (Pain, NPWT, Lymphedema)

# ITS Model: Platform Proven in Oncology

## InfuSystem ITS Value Proposition

### Opportunity: Oncology Home Treatment

- Large capital expense for clinics in addition to maintenance and nightly triage
- Reduced staff available to help patients with infusion pump questions and billing

### Solution: Outpatient Treatment

- Infusion devices fleet, inventoried and ready for distribution
- Patient maintains quality of life (work, events, family, rest in their own home)
- Clinics maintain control of patient care and medication
- Increased patient satisfaction

### Delivery: InfuSystem ITS

- Oncology market leader with over 2,100 sites of care
- Changed paradigm of care for patients, providers and payers
- Mitigates risk, management and maintenance of infusion pumps
- Reduces clinician and staff workload to allow greater focus on patient care
- Manages medical billing and reimbursement process
- Case managers provide pump education, billing assistance and additional 24/7 care
